A rocket to the moon! What a wonderful dream to dream here in 1956. Who knows what lies beyond the confines of our atmosphere; who can say if there really are people on the moon; who would have thought, 50 years ago, that mankind would be as close to the secrets of outer space as he is today? 50 years ago, rocketships and jet planes were merely visions.

In September of 1955 this book was a vision, too, an elusive dream in the back of the minds of the people who created it. Like the scientists and research men who are slowly trying to conquer the heavens, so does the staff of the '56 Citadel attempt to capture and preserve the spirit and feeling of the school.

We who are graduating find it hard to say goodbye—even to inadequate facilities. You, the undergraduates, may have a beautiful new campus, but it will be an impersonal structure. The spirit of warmth and friendliness that is so much a part of our school here at Kalurah Temple will be missing. Like that spirit, we who write this now will be among the missing, and we hope you will miss us, too.

## *Dedication*

MR. MARION A. FORBES

"Let's keep pecking away"—familiar words of encouragement to Mechanical students when the drawing room benches seem to get harder than usual and the "whir-r-r" of the coke machine becomes unbearable. However, arousing enthusiasm and encouraging tired and thirsty Mechanicals is just a part of the daily routine for our expert on stresses and strains, Mr. Marion A. Forbes.

Mr. Forbes, an Associate Professor of Mechanical Technology, is one of the members of the staff who has a Professional Engineer's license. A quick peek into his eventful past would reveal that he worked on the research for the Norden Bomb Sight (a highly secret project of World War II); was a project engineer for the celestial navigation trainer at Link Aviation, Inc.; and served as a consulting engineer, to name just a few of his varied experiences.

At the present time, Mr. Forbes is busily at work as advisor to the social committee and also is an active participant in his church work.

The dedication of this yearbook to you, Mr. Forbes, is just our way of saying "thanks" thanks for being our friend.

## *In Memoriam*

JAMES BELL NORRIS

On March 4, 1956, James Bell Norris, Chemical Senior, died in an automobile accident near Oneonta. His loss was and shall be deeply felt by all who knew him.

Jim was a rare person in that he could laugh at himself; a quality all too often missing in human make-up. Many were the times when the strain and tension of a difficult situation were alleviated by the gentle humor of this fine person.

It is regrettable that Jim did not live to fulfill his potential, for it is certain that his character and sincere personality would have made him honored and respected in any field he entered. As it is, he shall occupy an honored niche forever in the hearts of those who knew him.

The Lord must truly have had a far greater calling for him to have taken Jim back after so short a time with us on earth.

Therefore, as the greatest tribute any of us could possibly pay him, let us say simply, "He was my friend."

# *Class Prophecy*

CHARLIE BABCOCK—is now the assistant professor to Doctor Gruber in the Industrial Organization and Management Dept. at Broome Tech.

AGNES BARNO—is now the featured attraction in the circus, as "Two-Ton Aggie." Those darn diets just wouldn't work!

LAWRENCE BLAKE—owns a pegged khakis firm.

JAMES BRAMLEY—is a Ph D. doing research for Ansco in the field of co-polymerized vinyls (what?).

RALPH BUDINE—in 1960 can be found basking in the California sun with his three wives and 12 kids.

JIM BURKE—in 1966 wrote the best seller "How to Grow Old Gracefully."

WALTER BURROWS—is the chief salesman for "Beagle Brand Snow Jobs, Inc."

SID CHAFFEE—is the winner of the Nobel Peace Prize for settling internal strife.

DON CHANDLER—is still recovering from bruises received while wrestling for Broome Tech.

VINCE CORDI—is the modern Marlon Brando at M.G.M. movie studios.

DON CROSS—is manager of a wild Lonely Heart's Club.

FRED DINGLEBERRY—can be found holding up one end at Wandas'. Seems he celebrated his graduation there and hasn't left since.

ED DODGE—after 6 years of continuous study, has finally passed Calculus.

After a popularity poll of the Federal Penitentiaries, FRED DOOLITTLE was selected to be the first person to journey to Mars by rocket. If and when he returns he will be granted a full pardon providing he brings with him two Martians of the opposite sex.

RAY DUDEK—finally got married, because the cold winter nights were just too much for him to bear.

BOB DUNNE—is the U. S. Senator from the State of Confusion.

JOHN DYCE, hired as Vice-President, has been promoted to President of the South Wind Division of Stewart Warner; but then, all great men start at the bottom.

Captain Midnight has been recruited to find WAYNE EATON and BILL HILL who left on a rocket race to the moon five years ago.

CHARLES EKSTROM—is the new Athletic Director at Greene Central School.

JACK FICKE—is the new captain of the world-famous Binghamton Y. M. C. A. volleyball team.

JIM FLORINT—after taking the Charles Atlas 98 lb. weakling course, is now a 100 lb. hercules.

EUGENE FRANK—has just patented a new product for washing glassware. It's called "Easy-Break."

HAROLD GARRISON has made a million dollars from his invention of "Stop a Burp" pills.

DICK GARY—after raising 10 children, feels like a million dollars—all spent.

## *Class Prophecy*

PEGGY (SLASHER) GOODHART—is serving time—she got carried away with that needle.  
LAWRENCE GRAY and VINCE MICELI—are now doing the Piel's ads having become Bert & Harry Forbush.

DOT HATHAWAY & CLAIR SEKORA—are now volleyball instructors at Colgate University.

NANCY HARDING—is still campaign manager for "Wyatt Erp for President."

BOB HENDRICH is now sole owner of a Tanganyika gas station making its biggest profit selling compressed air to the natives.

MARGUERITE HOLTZMASTER—is writing a syndicated column, "Undercover in the Under World."

LELAND HOWE—"Luchie" is now head skinner for the BORAXO's 20-mule team.

L. JAKUBEK—finally had a son.

LORRAINE JURENA—is now Parking Lot Superintendent at the Rider Building.

JACK KETCHUM—is now Marilyn Monroe's private secretary. I guess it was really worth it to take 2 years of shorthand!

JERRY KOVAC—is still being led down Court Street by his "Mother." But he always steers her past the jewelry store.

HAL LAISE—is now the POWER COMPANY's Head Consulting Engineer.

ED LARKO—is now the bartender at Kolly's.

KAY LYON—has taken the job as Head Librarian for Broome Tech's new library.

ELWYN MacLAIN—has just completed his most trying week as a lawyer (he had his name changed to Melvin).

RONALD MATTICE—is now President of Broome County Technical Institute.

EDWARD MATYAS—never misses a Broome Tech basketball game. Got to cheer for his boy "Eddie Jr."

CHARLES MOORE—imports green cheese from the moon. He had a run-in with Fran Villante.

DOT MOSIER—is still washing bottles in the lab.

ED MOSS—was appointed head accountant at IBM after being highly recommended for the position by Mr. Tedick.

MAUREEN MULROONEY—still wears her crown while washing diapers for her three sets of triplets.

ROBERT NESTI—is now Chief Parakeet at "Birdland."

After two years of college, PAT NESTOR is now driving a truck for Nestor Brothers Trucking Company.

FRAN NEZELEK—is a well-known industrial leader. His factories are now the largest producers of accessories for tots; especially "Rubber Pants."

ROBERT O'CONNOR—Center of Harlem Globe Trotters Basketball team.

CAROLYN OLMSTEAD—has just beaten all records in drag racing—even beat "Jerry."

# *Class Prophecy*

- HOWIE PARIS—owns and operates the largest T.V. repairs and sales store in Unadilla, New York. (The only one too!)
- GARTHA PENNINGTON—is now an Old Maid—just couldn't make up her mind who is the right one!
- JEAN PERHACH—is teaching knitting at night school.
- JOE PURCELL—is now an I.B.M.'s Manager in charge of I.B.M.'s notorious "Bulb changers."
- EDWARD RASMUSSEN—taster for Hunt's Distributing Company.
- LEONARD RAYCHEL—house full of kids—master?
- HOWARD RINER—has discovered a fuel-saving formula to mix water with gasoline . . . his destitute widow and six kids are unimpressed.
- JOHN RUSSELL—is the chief barker for the Ringling Brothers Circus.
- BILL RYAN—was overheard telling his sons "Don't ever argue with a woman, because you'll never win."
- HELENE SALKIN—is living in Small Flats, Oklahoma — population 22 — New York City finally got her down.
- DICK SANAECO—is a world famous designer of "Maiden Form."
- DENNY SANDS—because of his ability to make change, is the cashier at the Red Robin Diner.
- JOSEPH SBARRA—just became the tired father of his 12th baby girl.
- DONALD SCHMITT—author of the best-seller "How to Raise a Football Team."
- ROBERT SEDLAK—now conducting an all-girl orchestra formerly under Phil Spitalny.

### CLASS OF 1957

First row—left to right: Tom Umhauer, Dave Knox, Ken Jones, Gordon Hinman.

Amidst the chug and the roar of engines live an industrious group of boys known as the "Autos." Clad in their working uniforms and wielding wrenches, blowtorches, and assorted other equipment, they go about their daily work joking and laughing among themselves.

But life among the Autos does not consist entirely of repairing, experimenting, and lecturing. One member is a motorcycle enthusiast; another raises chinchillas as a hobby, but one interest they all share in common is cars, cars, and more cars.

## *Chemical Technology*

First row—left to right: Anita Dates, Janet Laukaitis, Nancy Fowler, Catherine Croucher, Sharon Kinney, Eloise Traxler.

Second row: Donald Plummer, Ronald Carlton, Harold Johnson, John Bergfjord, James L. Dickens, Robert Sinicki, Tom Clearhon.

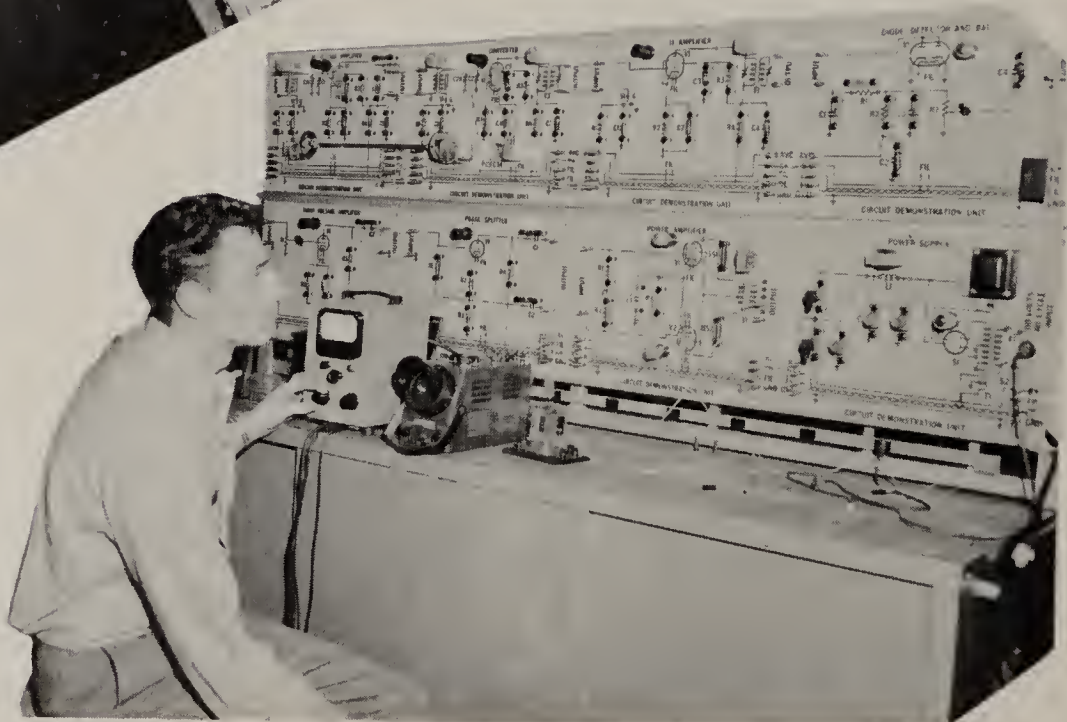

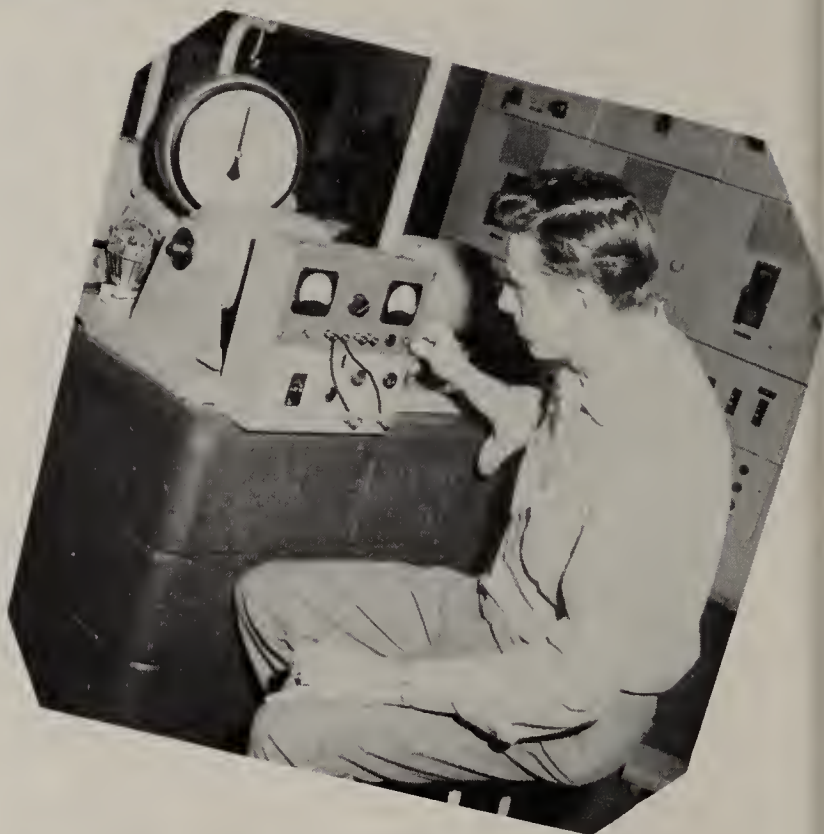

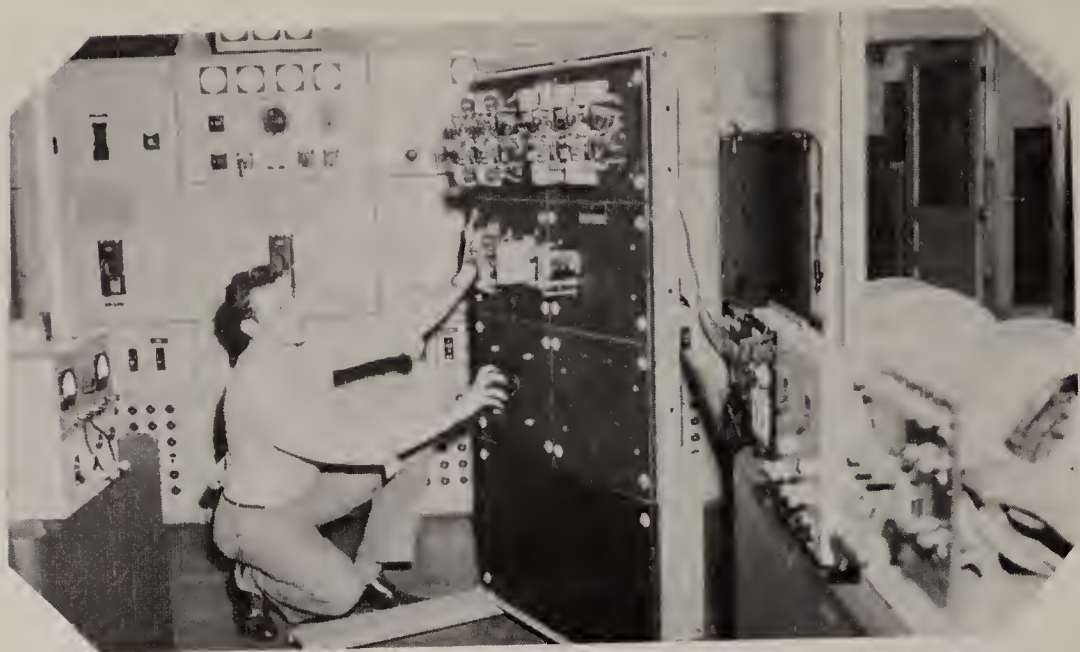

Third row: Harold Dibble, Ronald Tripp, C. Scott Eddy, James Baird, John B. Yeisley, Richard Shirley, Francis Kosalek, Lawrence Costello.

In case there is still some oblivious person left who doesn't recognize the Chems, they can always be identified by their favorite expressions: "Yeah!," "Huh!," and "Cotton-pickin'."

"Dull" is one word not included in the Chems' vocabulary. When their days of experimenting and calculating is over, they can often be found leisurely grouped in the cafeteria reminiscing about their good times together—discussing their parties; the time someone left a thermometer in hot metal and it solidified in the metal; or the day they accidentally locked an instructor out of the room and he thanked them for it.

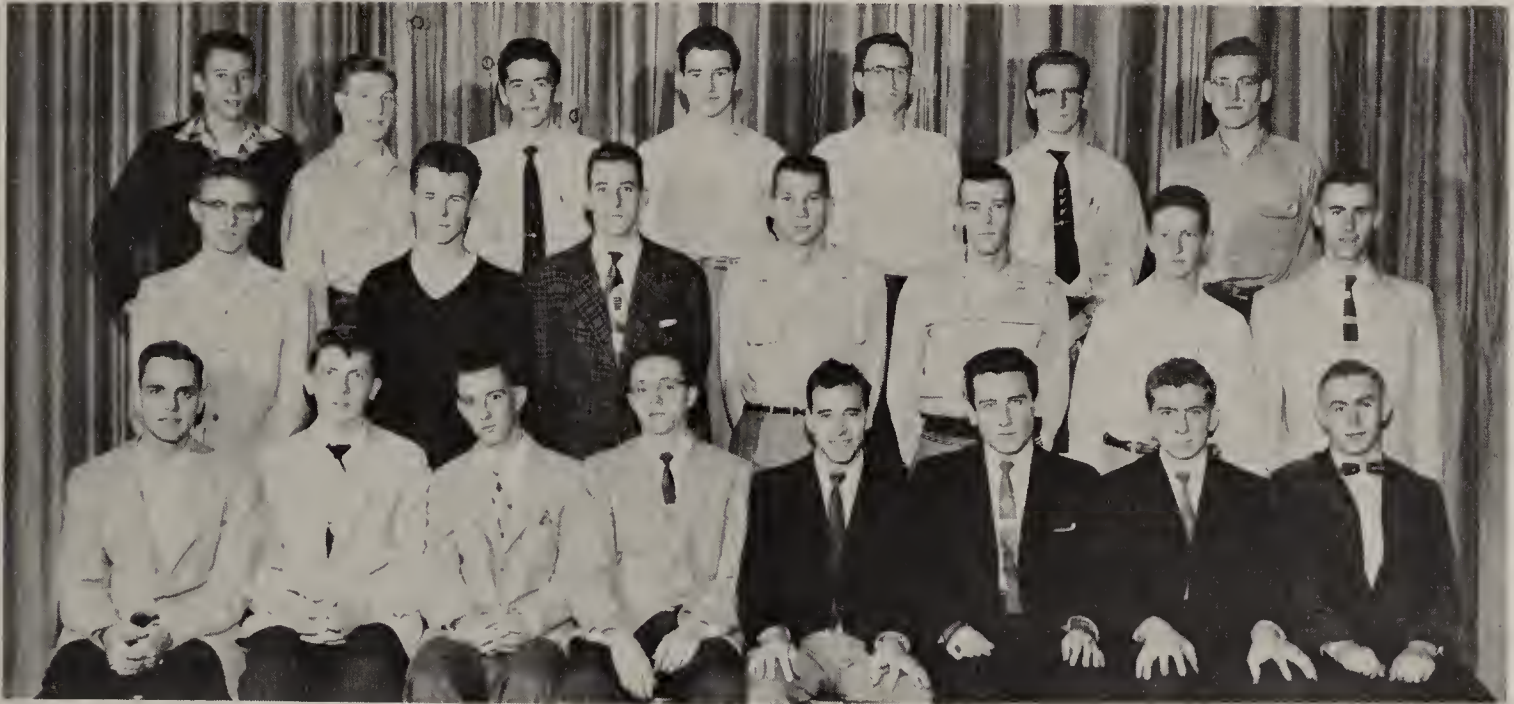

These and many other daily incidents keep our "super scientists" a lively and interesting group.

# *Electrical Technology*

CLASS OF 1957

First row—left to right: Neil Robinson, David J. Nolan, Marcus Welser, William Chamberlain, George Yezzi, Richard Sperski, James O'Donnell, Richard Cooper,  
 Second row: Wayne Stahl, William Whitley, Gerald Evan Orvis, James Moody, Robin Zevotek, Ronald Hodges, Andrew Kisacky.  
 Third row: Joseph Backo, Neal Aronson, Wesley Baker, Gerald Reeder, Richard Smith, Don Harris, Ron Rasmussen.

CLASS OF 1957

First row—left to right: Stanley Laskin, Julian Brown, Gerald Clark, James Kane, David Weingartner, Thomas Mullen, Paul Arnold, Don Davidson.  
 Second row: John Kester, Michael Kenyon, Charles McWherter, Ray Dixon, Rudolph Bobik, Ron Kriger, Fred Hodge, Leonard Reynolds, Frederick Holden, Wendell Cole.  
 Third row: Roger Emmons, Richard Price, Andrew Pelshaw, Thomas Burford, Joseph Nosek, Wayne Van Inwegen, Clarence Holland, Edward Sprout, Jim Fischer.

### CLASS OF 1957

First row—left to right: Vern Carpenter, Mario Masciarelli, Richard Everett, Frank Lance, Fred Maas, Joe Mueller, Richard Magnus, Alan Lueck.

Second row: R. Lee Keator, Richard Kulikowski, Edward Grover, Charles Kellam, Robert Pierdomenico, David Campbell, Leo Voelkle, Jay Brian Carter, Richard Connors, Stephen Kucera, Richard Alapeck.

Third row: Robert Reich, Dale Champoux, Morris Miller, Jack Atwater, Jack Hinds, Peter Banko, Bernard Mossakowski, Ronald Kilmer, Gabriel Russin, John Jurkovich.

"Hey! Mag, who are those fellas in the lounge? They're strangers here, aren't they?"

"No Kay, put your glasses on. Those fellas go to Broome Tech; they're Electricals."

"Gee, I put my glasses on and I still don't recognize them. Where've these good-looking boys been hiding?"

"Down in the Rider building. Seems to me they're so devoted to their work, they eat, drink, and sleep down there. That's why we never see them. I hear tell they're working on some sort of an electrical device that will be of more help to B.C.T.I. students than their illustrious slide rules."

Well, this conversation may be somewhat exaggerated, but the Electricals do make themselves rather scarce at school. However, they are certainly no strangers on the basketball floor, as some of them are on the varsity. Also, some of the Electricals are members in good standing of A.I.E.E., Citadel, Student Council, baseball team, volleyball team, Circle "K", and Newman Club.

Yessiree, those Electricals are sure a tribute to our school, and we could stand to see a lot more of them around the campus.

# *Mechanical Technology*

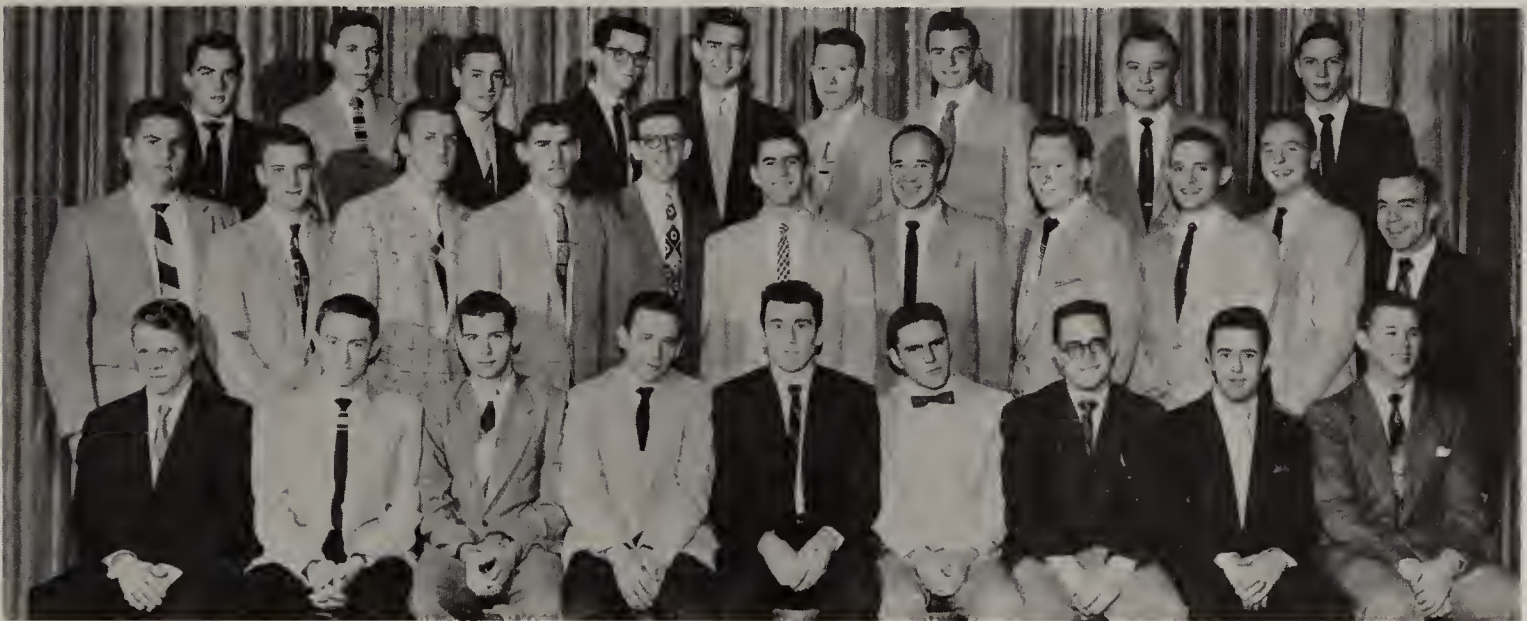

## CLASS OF 1957

First row—left to right: Joseph Adams, David Fowler, Bruce Parsons, Richard Stethers, Mike Parrillo, Edmund Duhlmeier, William Stupp, Thomas Havel, Bernard Herceg, James Downs.

Second row: Gerald Wilber, Roy Shurtleff, Frank Hillis, John Tshulos, Paul Mertens, Daniel Drewry, Ed Holub, Dick Monkovich, Don Titus, Joe Horvatt, Ken Mosher, Don Wilson.

Third row: Charles Garcznski, Andrew Murcko, Osmer Brooks, David Wallace, Frederick Bartholomew, William Moore, Richard Truex, Raymond Thompson, James Nichols, Albert Myott, Ray Parsons.

## CLASS OF 1957

First row—left to right: Robert Church, Robert Little, Paul Van Gorden, Jerry Turecek, Paul Valachovic, Jack Lambert, David Potak, George Giuffre, Henning Nilsen.

Second row: Walter Tabor, Joseph Marks, Edward Daszewski, Edward Henne-  
man, James Putman, Stan Prorock, Ed Halgas, Neil Isham, James White, Ronald Strain, Leal Daly.

Third row: Bob Wescott, William Fendick, Tony Vitale, John Cockerill, Manuel Feijoo, Roland Tompkins, Ray Roody, Val Horvatt, Robert Michalek.

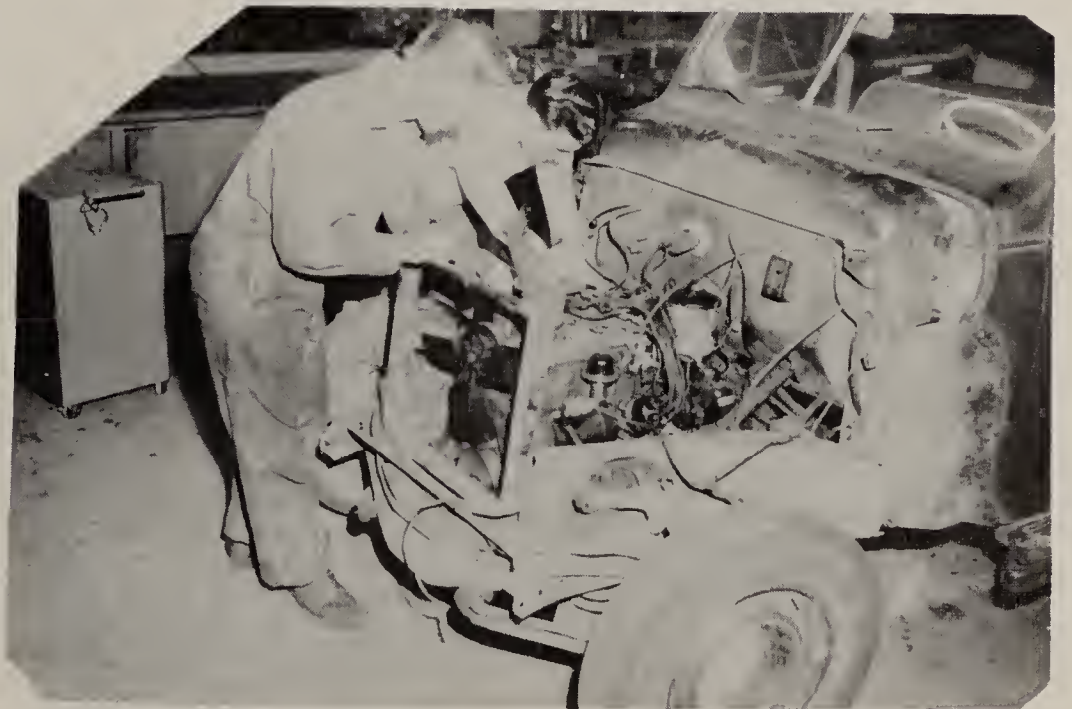

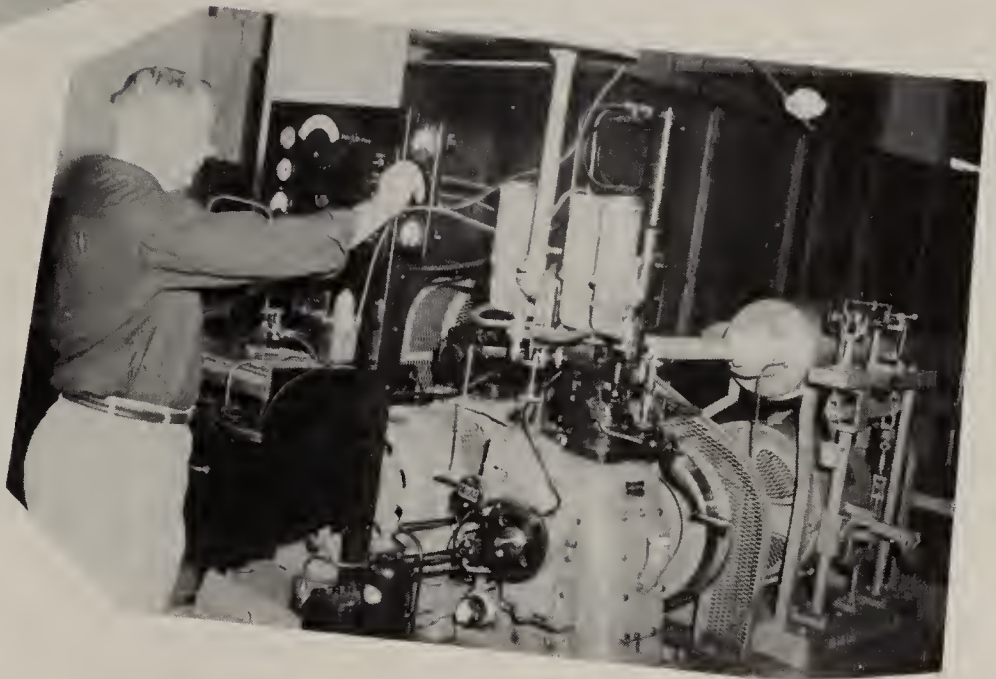

This is one class that never runs out of jokes (or jokers!). They are a spirited, fun-loving group of individuals who can usually be found behind a deck of pinochle cards—when they aren't studying, that is.

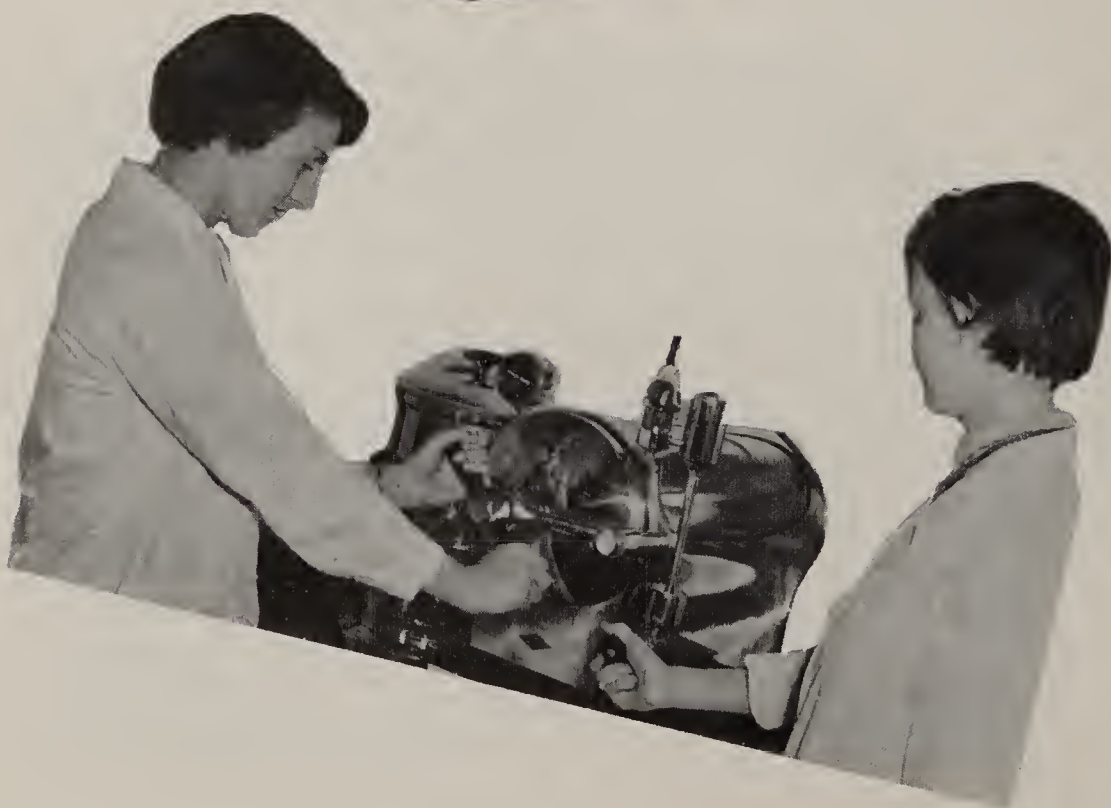

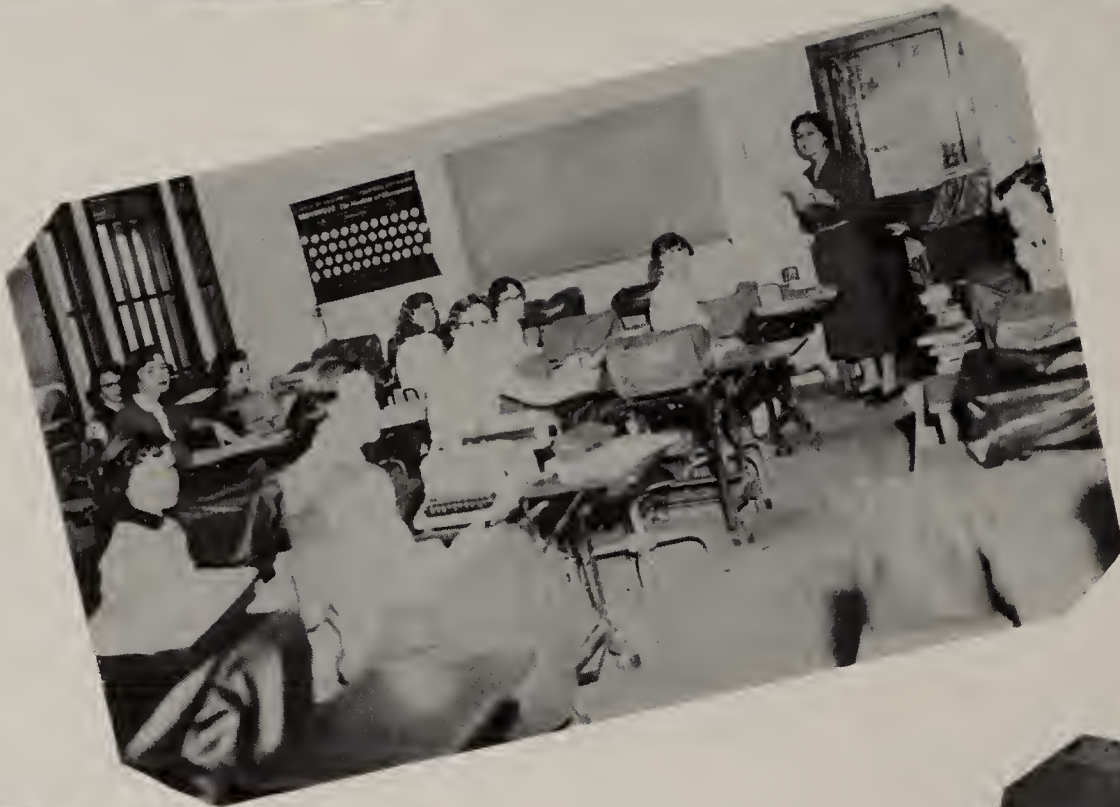

Two very important members of our Varsity basketball team come from this class, as do a few of the J. V. players. Most of the "ladder" work for the Social Committee is done by the Mechanicals. They play volleyball, basketball, are in Student Council, Newman Club, and Circle "K" Club.

As long as the Mechanicals are around, we will never have dull moments around school.

## *Medical Office Assistants*

First row — left to right: Eleanor Lord, Carol Munro, Peggy Hird, Mary Jane Mowry.

Second row: Evelyn Rudzik, Viola Fabrizio, Lillian Hillary, Shirley Houghtaling, Mary Slovak, Jean McAlister.

To this date, the M. O. I's have succeeded in not blowing up the Chem. Lab, although some people (A. B. ?) might think they have tried hard enough to do it!

This is no reflection on their intelligence — members of this class have consistently on both the President's List and the Honor Roll. The Glee Club would be lost without them, as the alto section is composed mostly of these girls. They have worked hard on the Tech Talk Staff and the Citadel. They are active in Social Committee, Student Council, Newman Club, and Girls' Volleyball. Two members of the class have also been elected to the office of secretary of Student Council and the Freshman Class.

Both serious and full of fun, the M. O.'s have contributed much to the school.

## *Technical Office Assistants*

First row—left to right: Margaret Lavin, Pat Spolsky, Donna Chatham, Gerianne Compton, Margaret Norconk, Marie Battista, Lois Cornell, Colleen Bussey.

Second row: Walter Ketzak, Thomas Vahamikos, Robert Kniffen, Edward Mosher, Joan Bolebruch, Vera Kalaf, Dorothy Rozboril, John Sharak, Sanford Crooks, Donald Thomas, Ernest Whittle, John Marko.

Third row: Gary McCane, Ronald Giblin, Robert Johnsonbaugh, John Bender, Michael Dohanich, Charles Johnson, Frank Tedeschi, Bill Waldron, Clyde Thompson.

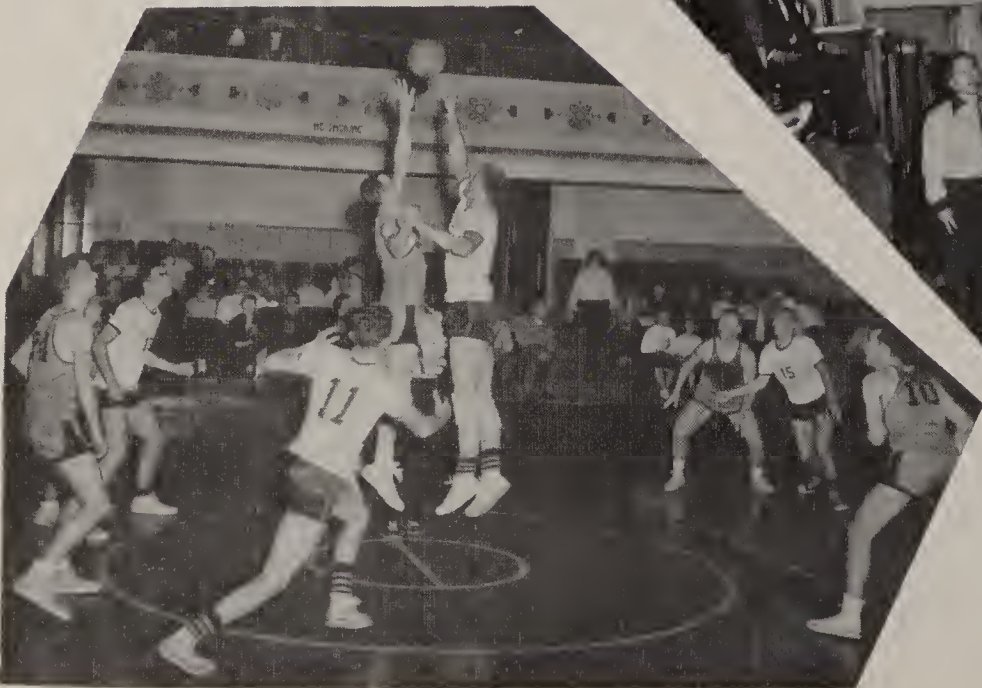

How many thousand times a day do we hear it, "Boy, that T. O. Course is a snap!" Brother, them's fighting words, 'cause there isn't an ounce of truth in the statement.

The T. O.'s are a hard-working bunch of students. However, excuses of studying don't keep them from having lots of school spirit. Who else would drive all the way to Buffalo to give our players much needed support during a game?

The T. O.'s are very much a part of our school, as evidenced by all things they participate in. Their class is represented in the varsity basketball team, volleyball team, Citadel, Tech Talk, Student Council, to name just a few.

The guys and gals in the T. O. Class are true examples of hard workers, good sports, and all around good Joes.

"Sweet, sweet, the memories you gave me." Yes, the memories Broome Tech has given us are sweet, and they're captured forever in our yearbook. Surely no college is complete without its yearbook, and our CITADEL is one of the best.

Heartfelt thanks and praise must be given to the editor. She was the backbone of the whole staff. The co-operation she received from each and every staff member helped her to make the CITADEL a real success.

Our yearbook cannot be termed in money's worth. The small investment we made this year will give us rich dividends for years to come. Yes, our sweet memories we will have forever, thanks to CITADEL.

## *Tech Talk*

Something new has been added to the family of organizations here at Broome Tech. The new addition is the school newspaper, TECH TALK. After a long noticeable absence, TECH TALK is back, and the staff hopes that it is better than ever. Reception of the newspaper has been wonderful, as the students rely on it for news, gossip, and reading entertainment.

Let's hope TECH TALK is here to stay.

## *Student-Faculty Association*

First row—left to right: Agnes Barno, C. C. Tyrrell, Martha Wallace.  
Second row: Stanley Crandall, T. R. Cone, A. J. Kalbaugh, John Sents, J. Mc-Vean, M. Forbes, H. H. Gruber.

## *Athletic Committee*

First row—left to right: Nancy Harding, Jean Perhach.  
Second row: Dick Gary, Walter Tedick, Jack Ward, Jack Ficke.

## *Social Committee*

Front row—left to right: Casimir Sierzant, Mary Wood, Nancy Harding, Maureen Mulrooney, Patricia Nestor, Dorothy Rozboril, Mary Jane Mowry, Robert Sedlak.

Back row: Jean McAlister, Donna Chatham, Peggy Goodhart, Dorothy Hathaway, Dottie Mosier, Jack Ward, Claire Sekora, Jean Perhach, Barbara Srnka, Viola Fabrizio, Lillian Hillary.

Under the fine leadership of our Queen of Hearts, Maureen Mulrooney, Social Committee has achieved another season of successful work.

On December 3, our annual King Tech dance was held at the Arlington Hotel, and Ed Matayas was crowned King. The Freshman members of the committee took over for the Christmas Dance and scored a fine success with "at the mike" McManus supplying the music and chatter.

The Queen of Hearts Ball was the "crowning" success of the year. Maureen, and her lovely court, consisting of Kay Lyon, Agnes Barno, Gartha Pennington, and Jean Perhach, were presented to the students in a glowing atmosphere of Cupids and hearts.

Through the wonderful cooperation of the members of this committee, the social events of the past year will long be remembered.

## *Convocation Committee*

First row—left to right: Pat Spolsky, Miss Foley, Viola Fabrizio, Martha Wallace.  
Second row: Mr. Orinik, Mr. Elliot, Mr. Emmons, Mr. Simser, Mr. Nimr.

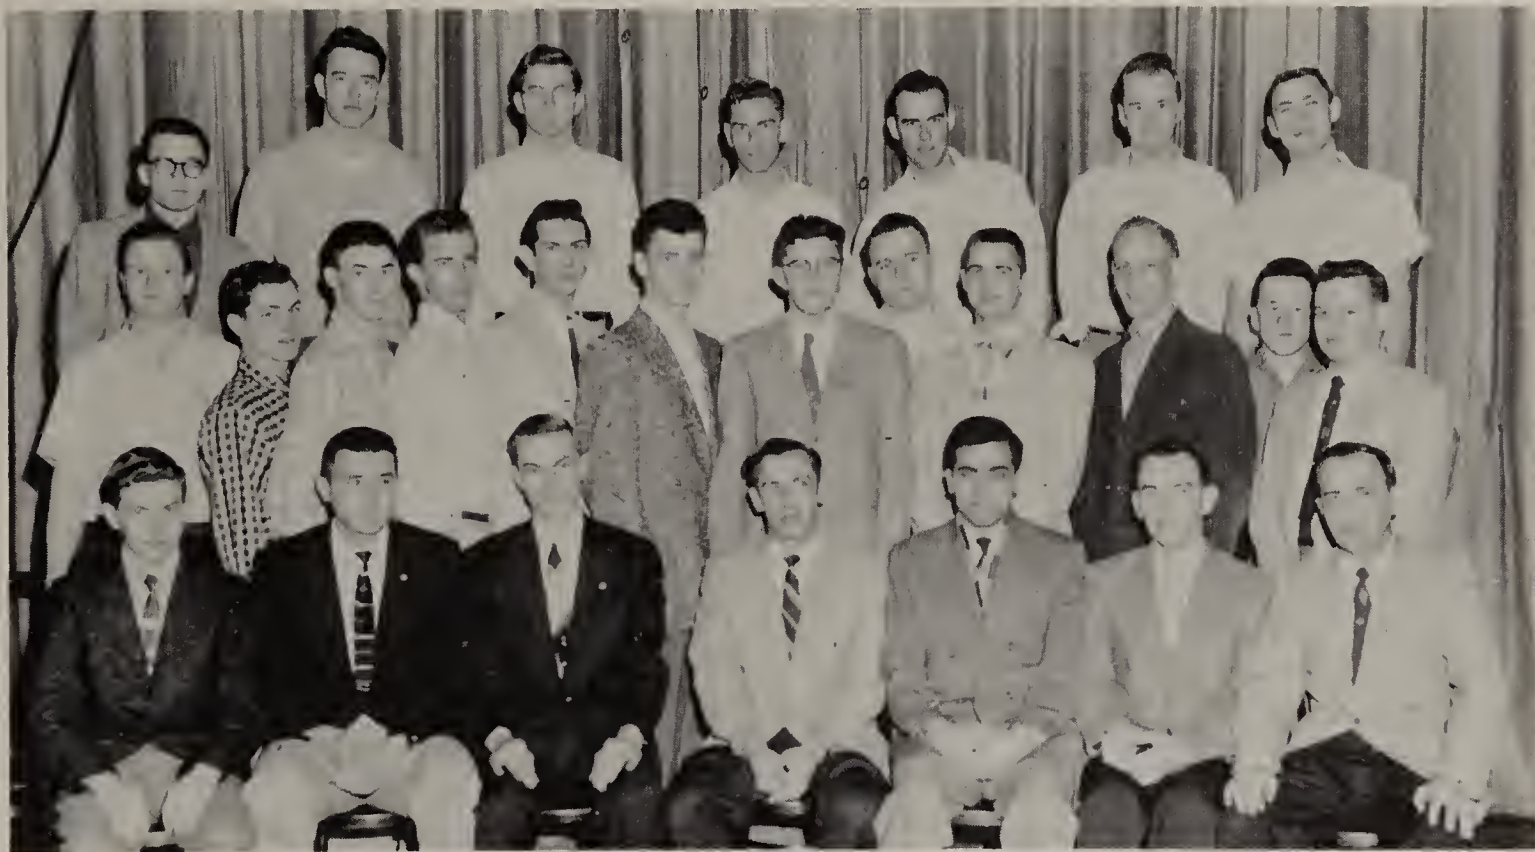

## *Awards Committee*

Left to right: Raymond Perine, John Sents.

## *A. I. E. E. Seniors*

Front row—left to right: Robert O'Connor, John Sents, Carlon Warren, Hal Laise, Bechara Aboufadel, Richard Gary, Ed Larko.

Second row: Robert Eckenbrecht, Ray Dudek, John Ward, Casimir Sierzant, Robert Sedlak, Howard Paris, John Stanton, Charles Babcock, Jack Ficke, Robert Williams, Lewis Barnard, Jack Shelton.

Third row: Larry Blake, Ed Hunt, Brian Southern, Dennis Sands, Ed Rasmussen, Leland Howe, Fran Nezelek.

## Alumni Association

ALFRED E. HONEYCHUCK  
President

SHIRLEY BOYD  
Vice-president

FRANCES FOX  
Secretary

LOUISE DAVIS  
Treasurer

The "brains" behind the Alumni Association this year were: President, Alfred E. Honeychuck; Vice-President, Shirley Boyd; Secretary, Frances Fox, and Treasurer, Louise Davis.

The big event of the year, as far as the Alumni are concerned, was the Annual King Tech Dance, or, as some like to call it, the Alumni Dance. We saw there some of the people we haven't seen since graduation last June.

It is hoped that everyone who graduates will want to become a member of the Association and will take active part in some of its activities.

# VARSITY

In recent years, Coach Dick Baldwin has been able to form a good team because he had a nucleus of returning letterman, but such was not the case this year. Of the four veterans, only Ed Matyas performed up to expectations while Ian Kilmer saw only limited action during the span of the season. The other two, George Wyskowski and Dick Masaryk, decided against basketball this year because they wanted to concentrate more on their studies. However, there wasn't much gloom around the school because Tech finished with a very acceptable 17-6 won-lost record and in so doing, it raised Coach Baldwin's all-time mark to 169 games won and only 56 lost (.752).

The reason for the creditable showing was the performances of the freshmen—mainly Dick Alapeck, Paul Valachovic, Bob Kniffen, Ronny Strain, Ernie Whittle, and Bob Pierdomenico. They helped Tech to a third-place finish in the Empire State Conference and to the final round of the Region 15 Junior College Tournament.

December 3 was the opening of the season and the Hornets emerged victorious, 76-68; they followed it with a victory over Cobleskill 75-71, thus starting their Empire State Conference play on the right foot. On Friday, December 9, Tech established two single game marks—the 124 points scored against Orange County Community College and the 69 points scored in one half. The Black and Gold kept on their winning ways by trouncing Canton, 80-65.

The "lost week-end" was next as Tech traveled to the metropolitan area. They lost to Westchester 84-57 and to New York City Tech 93-83, both undefeated teams in the New York area. The Hornets found the victory track again, beating Paul Smiths 96-84. Next came another triumph over Orange County Community College, but this one was a lot closer, 79-71. Tech beat Hudson Valley Tech in a thriller 79-76 and came right back to defeat Alfred Tech 75-66 and Auburn Community College, 107-77. It was in the latter game that the team staged one of the greatest scoring sprees in its history as they sank 62 points in just 12 minutes of playing time.

# BASKETBALL

The Hornets kept right on the victory train by edging Roberts Wesleyan 71-65 and by swamping Mohawk Valley Tech 111-79 as Dick Alapeck scored 31 points in about 31 minutes of play to spark the team into century-land. They just missed 100 against Auburn Community College, winning 99-66 after building an insurmountable half-time margin of 53-19. Tech stayed in the 90's by trimming Cobleskill 98-89.

The Hornets suffered their first league loss to powerful Erie Tech, 61-57, but came back to defeat Mohawk Valley Tech 94-82. A Parents' Day crowd saw Dick Alapeck throw in 42 points for a new school high for the season as he led Tech to a convincing 99-77 triumph over Roberts Wesleyan. In their next league encounter, the Black and Gold were upset by Alfred 70-68 and with that loss, the chance for a first-place finish faded away. A few days later, Erie Tech applied the crusher by toying with Tech and the Hornets came home on the short end of an 85-62 count.

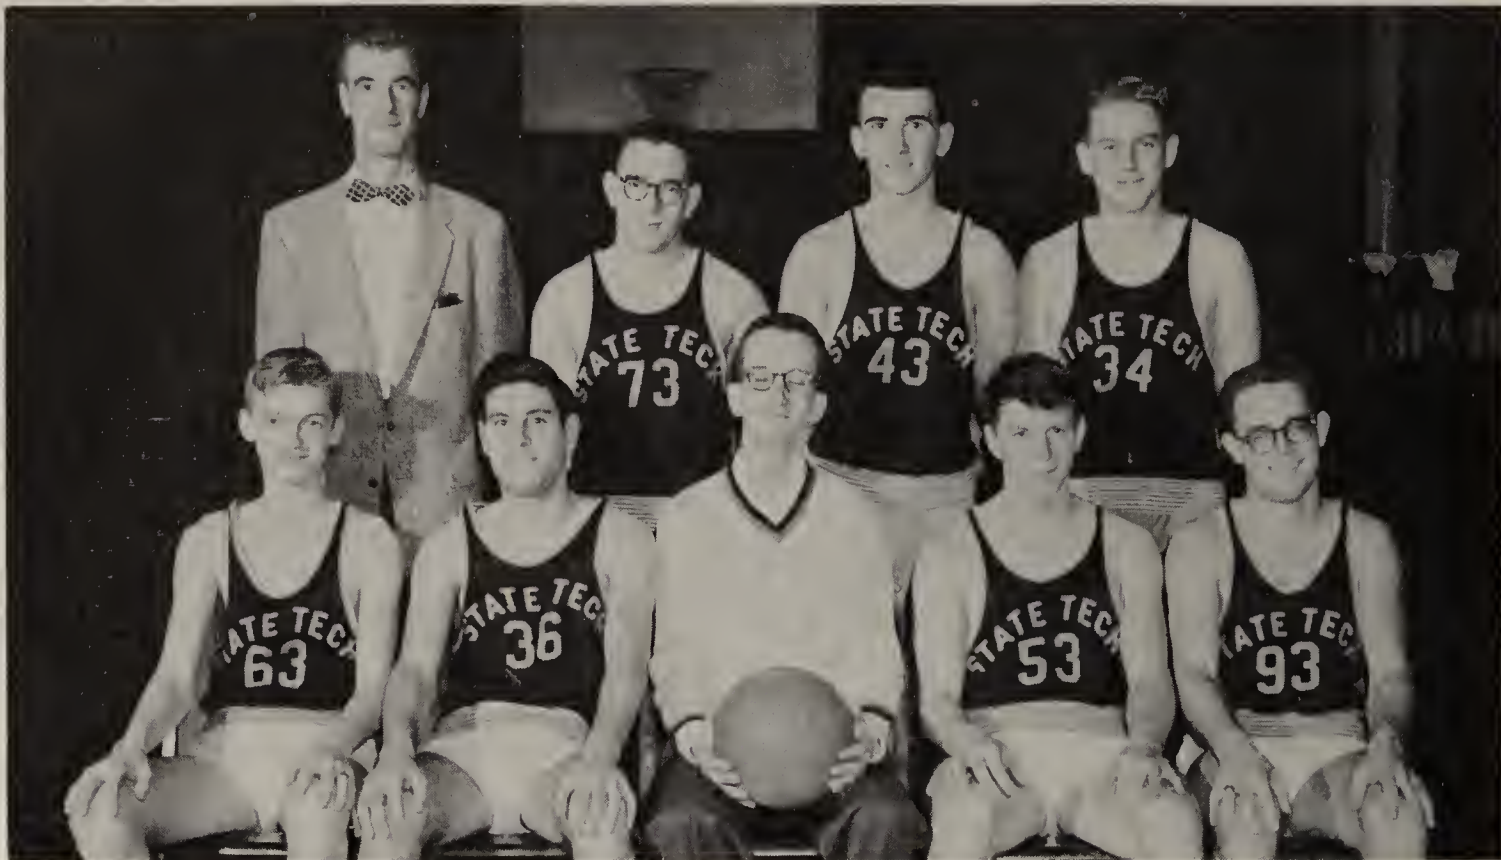

For the second time in its history, Broome Tech was host for the Region 15 Junior College Tourney which was held in early March. With two minutes to go and seven points behind, Tech battled back to edge Hudson Valley Tech, 74-73, with Paul Valachovic's three-point play, with 25 seconds left, the clincher. The Hornets gained sweet revenge by rolling over Westchester, 95-78, but couldn't make it a sweep as New York City Tech defeated them for the second time during the season 91-82.

As far as individuals go, Dick Alapeck has set three records: field-goal accuracy (207 baskets in 446 tries for 46.4%), most points (485) and best average (21.1 points per game) ever made by a freshman. Two other marks are well within his reach—Ben Clarke's all-time career total of 974 points and Bernie Bensen's career high-average of 19.2 points per game. Bob Kniffen established a new high of 291 rebounds in 22 games.

Since only Matyas and Kilmer are leaving via graduation, the outlook for next year looks very promising. With their added experience, this years' band of gallant freshmen ought to hit their peak in the forecoming season and, together with the new faces that will come to Broome Tech's "campus" in September, they stand a good chance to finish atop both the Empire State Conference and the Region 15 Junior College Tournament and win that coveted trip to Kansas.

## *J-V Basketball*

Front row—left to right: R. Connors, Morris Miller, A. Vahamikos, R. Michalek, Dave Potak.

Second row: Mr. Beagle, R. Everett, P. Wortas, O. Brooks.

## *Baseball*

First row—left to right: Len Raychel, John Sents, Stan Prorock, Dale Champoux.

Second row: Coach Baldwin, Ray Doyle, Oliver Harding, Fran Nezelek, Ed Daszewski, Bob Kniffen, Andy Kisacky, Clyde Thompson.

Third row: Dave Chandler, Dick Kulikowski, Dick Everett, Ed Mosher, Dick Masaryk, Pete Banko.

## *Cheerleaders*

Left to right: Marie Battista, Agnes Barno, Dorothy Mosier, Gartha Pennington, Patricia Nestor.

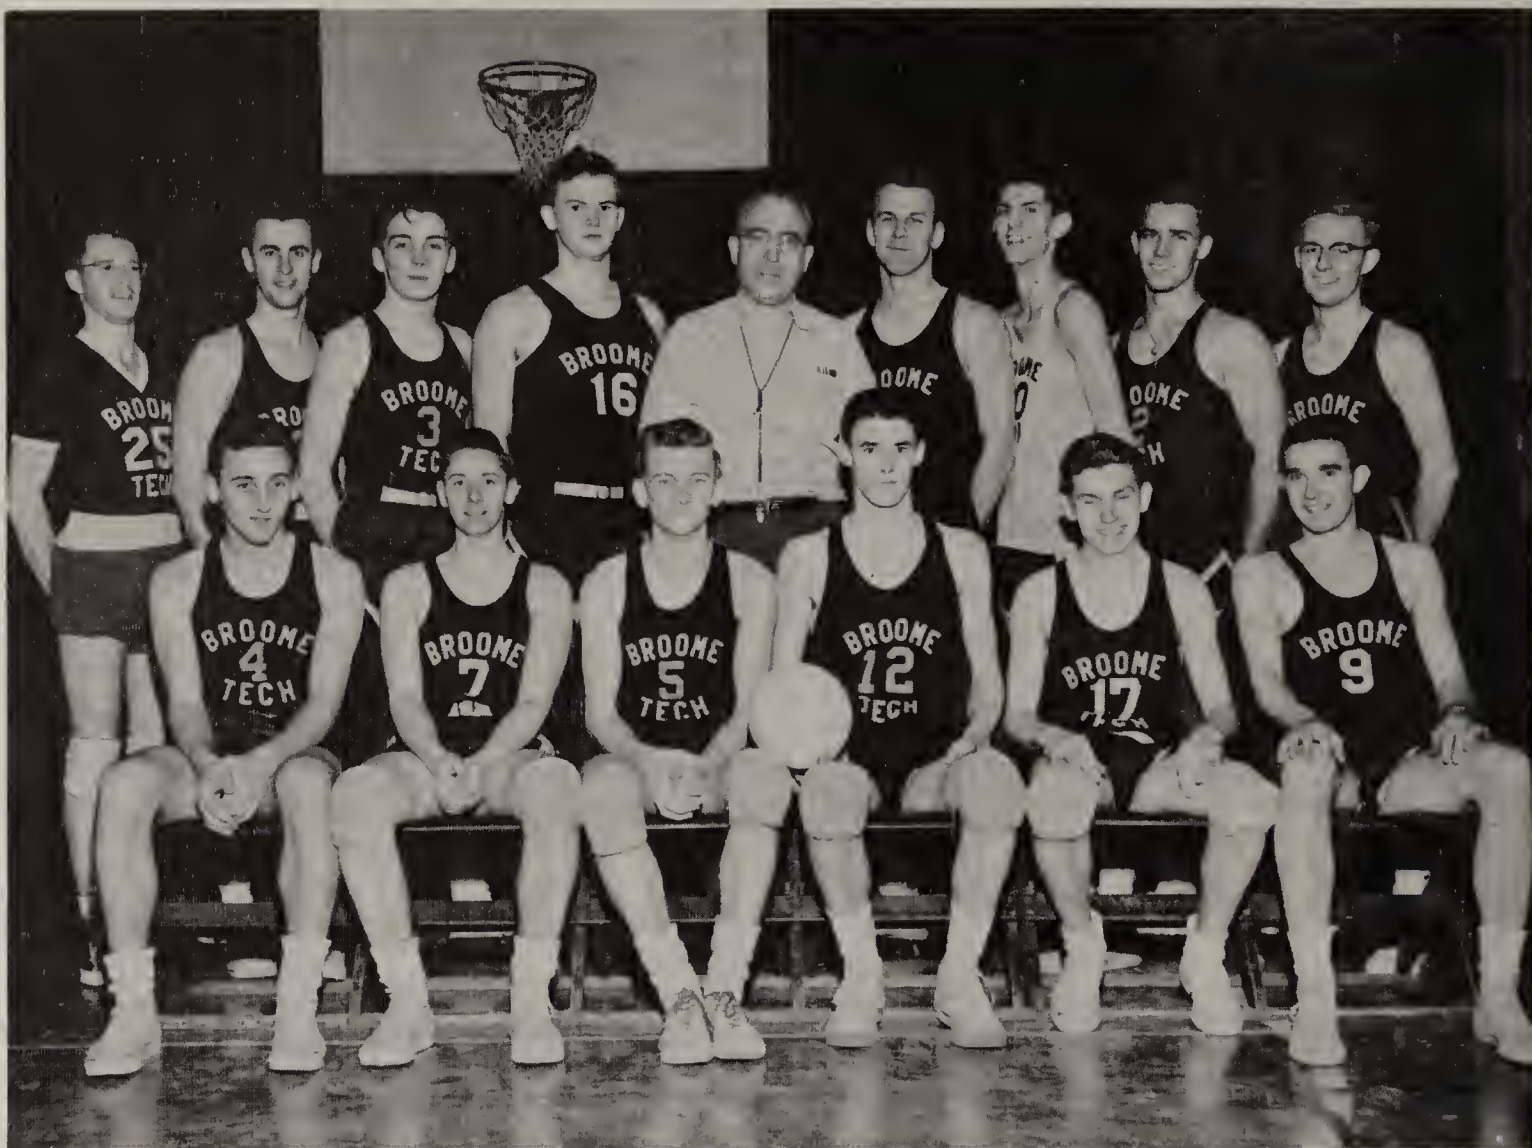

Although there were no student buses to the away games this year, the cheerleaders managed to "beg, borrow, or steal" a ride to many of the games. This was due mainly to the wonderful co-operation we received from Miss Marci, our advisor, and Miss Ash, who was always willing to take us where we wanted to go.

The high-spot of the season was the trip to New York City and, although we did not emerge victorious, a good time was had by all. Another important event of the season was the Region XV Junior College Basketball Tourney held at Broome Tech. The cheerleaders from Erie Tech and New York City Tech represented their teams very well, and quite a few new friends were made.

The lack of school spirit did not dampen the cheerleaders efforts to keep right on yelling for the team. This was quite evident in the number of cases of laryngitis during the season.

We, the cheerleaders, were and still are, very proud of our team and all those people connected with it.

# Volleyball

Front row—left to right: James Nichols, Bruce Parsons, Norman Bauer, John Ward, Robert O'Connor, Bill Ryan.

Back row: Richard Smith, Andrew Kisacky, Ray Parsons, Frank Hillis, Mr. Roy Greenwood, Edward Daszewski, Robert Sedlak, Casimir Sierzant, Wayne Stahl.

Although the competition in Eastern college volleyball grows stronger every year, and although Broome Tech must play chiefly four-year colleges in this sport, our varsity and junior varsity volleyball teams continue to make good records.

The varsity team took second place out of four teams in the college section of the Gardner Tournament at Scranton in November, third place out of six teams at the Schenectady Intercollegiate Tournament in December, second place out of eight teams in Section B of the Stan Bown Intercollegiate Tournament held by us in March, and tied for fifth place in Section A of that tournament. It also defeated the University of Scranton team on a twin bill in February with the University of Scranton-Albright basketball game, and tied for second place at the Johnstown Tournament in March.

The junior varsity team made a record almost equal to that of the varsity. It took third place at the Gardner Tournament, fourth at the Schenectady Tournament, tied for second place at the Johnstown Tournament, and defeated the University of Scranton team in a twin bill with the U. of S.-Niagara U. basketball game in February. The loss of one player who left school just before the Stan Bown Tournament and two who went to cooperative positions out-of-town at the same time so weakened the team that it only tied for seventh place in Section B of the Stan Bown Tournament. However, it gave the varsity vigorous opposition in practice, provided new members for the varsity team, and will probably furnish several experienced players for next fall's varsity team.

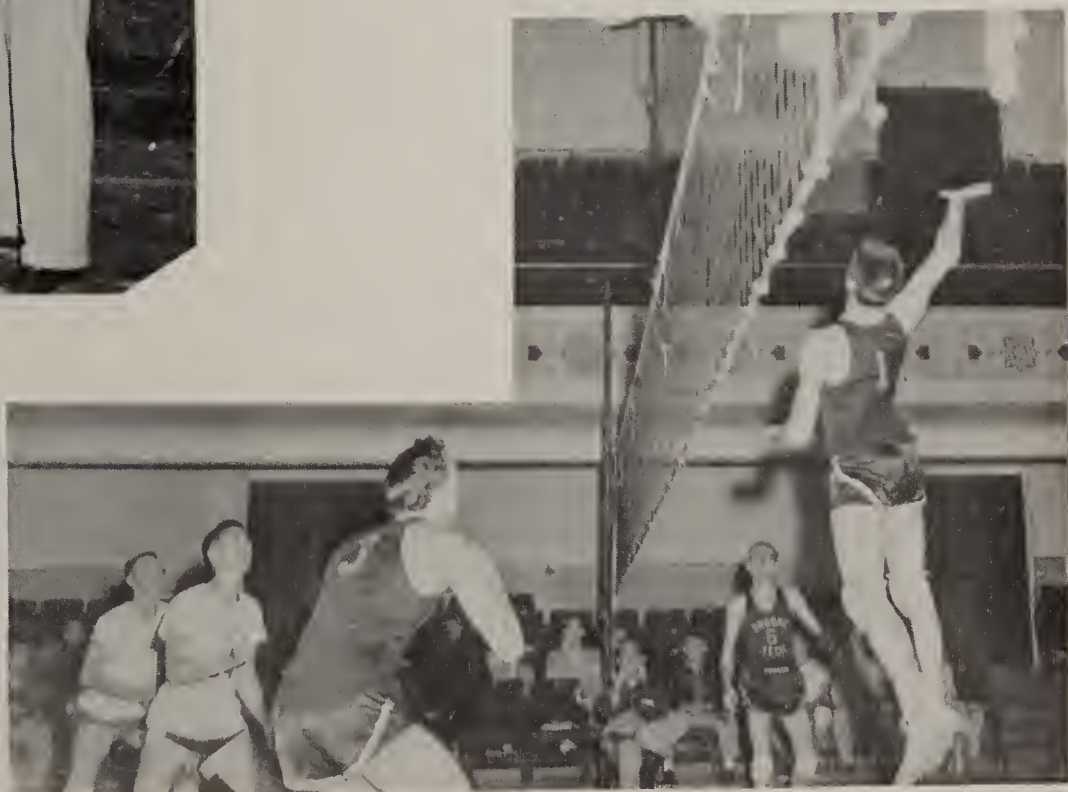

The Stan Bown Tournament was for the third consecutive year the outstanding college tournament in the East, and the fifth such successful intercollegiate tournament held by Broome Tech.

The women's volleyball team played in the women's section of the Gardner Tournament and in several small local tournaments with Wilson Hospital School of Nursing and City Hospital School of Nursing. It is hoped that next year the women's team can play a more active part in intercollegiate volleyball, despite the fact that it is difficult to find college women's teams willing to play according to United States Volleyball Association rules.

Intramural men's, women's, and mixed volleyball matches at noon involved throughout the year the activities of a high percentage of our students. As students left for cooperative work or returned from such positions at the end of each term, teams kept changing, but the competition remained intense.

The Broome Tech Volleyball Club, with Casey Sierzant as president, met more often than in previous years, and helped greatly to sound out student opinion on volleyball matters and to make plans for volleyball activities.

# 24,000,000 MINUTES

As a new graduate, you are now standing on the threshold of time. You have 24,000,000 minutes left to complete your life's work.

What you do with the time that has been allotted for your particular journey through life is, of course, up to you. But it is important to realize that time becomes increasingly valuable as you grow older. All of the goals and ambitions you have chosen for yourself must be reached within about the next forty-six years. This gives you, at the age of twenty-two, roughly 24,000,000 priceless minutes—more or less—to work with.

Time is something to be reckoned with. It comes at you in seconds, minutes and hours—such tiny sands of measurement that days, weeks, months, and even years can sometimes slip by unnoticed through the hourglass of your life. Time is an eternal buffer that can give you the polish that comes with experience, or it can be an emery wheel that will wear you down at every turn. The personality and depth of character you develop within your inner self makes this vital determination.

Time is important. Never make the mistake of thinking it is not. Remember that in the final analysis, minutes wasted in getting started can add up to the hours of a lost opportunity. Do not be one of those who wastes time waiting for opportunity to come knocking on the door. It should be you—always—who goes knocking on opportunity's door.

Time is expendable. It has been given to you in a certain amount to spend in whatever way you see fit. But it should be clearly understood there is a built-in bonus for those who make effective use of time. Thus far, you have spent 11,304,000 minutes of your life, and these have been minutes well spent . . . for the past 22 years, spent at home and in acquiring an education, have given you the background needed for a good start in life. Now, the important thing is to keep going. Good luck to you and your friends who make up the Class of '56. The next 24,000,000 minutes are up to you.

You graduates of the Class of 1956 are fortunate that your forefathers created an incentive system that has built the highest living standard in the world. This system offers us the opportunity for progress, prosperity, security.

The nation has grown under the incentive system of free enterprise and has helped to make our American democracy one of real and tangible benefit to the common man.

As long as you, the youth of our land, remember that here in America we have the greatest plan of living conceived by man—the nation shall be secure and shall advance to greater fulfillment of the American way of life, liberty and happiness.

The United States of tomorrow belongs to the children of today and the adults are the trustees for them. It is our duty to safeguard the principles that have made our country great and to encourage all with whom we come in contact to take an ever increasing interest in the family and the home; thereby contributing to the betterment of our communities, the growth of our country, and the improvement of our relations throughout the world.

# LINK AVIATION, INC.

One of the largest employers of Broome Tech graduates

## SALUTES

### BROOME TECH'S GRADUATING SENIORS

Link Aviation, Inc., pioneer and world leader in the production of aircraft training equipment, today is turning out some of the most advanced flight simulators known, to help train America's jet pilots.

Helping greatly in the design and manufacture of those devices are the approximately 70 Broome Tech graduates of recent years who work at Link. All of them are performing important functions—in challenging jobs that spell future opportunity and security.

Some of them are helping to design the precision instruments that go into Link simulators; some perform test operations on electronic computers and components; some install and adjust electronic equipment in simulator chassis, and others work on drafting boards or prepare and edit technical handbooks.

In addition to job satisfaction and excellent wages and working conditions, they have found that Link offers an outstanding benefit program that includes paid vacations, paid holidays, a profit sharing-retirement plan financed solely out of company profits, group life insurance and group health and accident coverage for themselves and their families.

You are invited to look into the career opportunities at Link, in the design, mechanical and electrical engineering fields and in clerical and stenographic work. Inquire at our Employment Department in Hillcrest.

Link wishes to congratulate Edward Larko, the Electrical Technology graduate named to receive the Link Award, a library of technical handbooks, for outstanding scholarship, initiative and leadership.
